

The Jews museum

This day started with a trip around Šeduva where we saw the town from an ecological perspective.

In total we saw 4 places, here are some of the places.

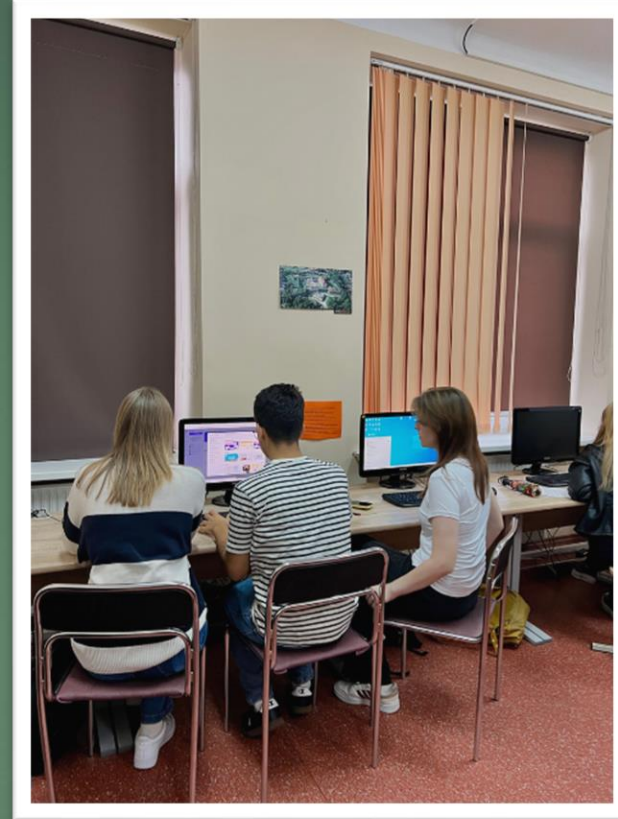

AgroMax

Heavy waste landfill

Friday's mission is to separate into groups and create a presentation along with a drawing about each day activities

This week was full of activities, opportunities and memories. Sadly, this is the last day, but even so it was very fun and memorable for all of us.

Thanks for participating in
this project and for
listening to us!!! 😊
